

Ideation Phase

Empathize & Discover

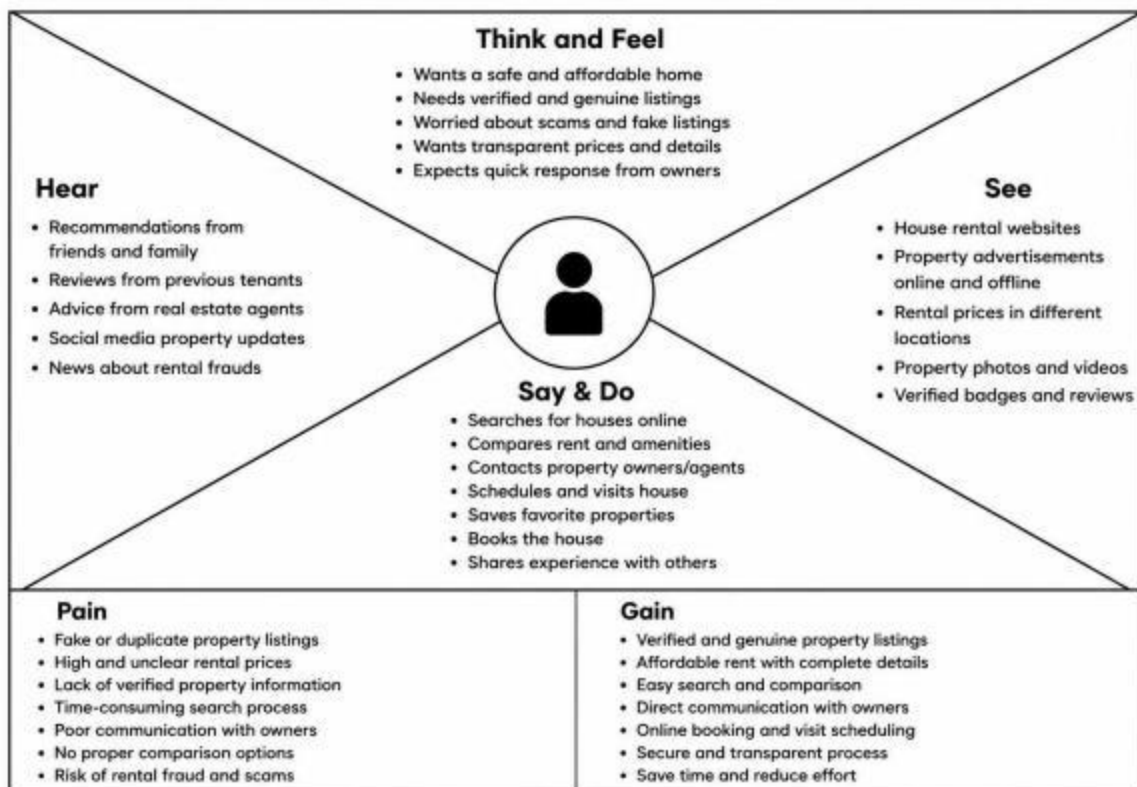

Date	13 july 2026
Team ID	SWTID-2026-7371
Project Name	House Rent
Maximum Marks	4 Marks

Empathy Map Canvas:

The Empathy Map Canvas is used to understand the needs, expectations, emotions, and behaviors of users interacting with the **HouseHunt** platform. It helps the project team analyze the experiences oftenants, house owners, and administrators throughout the house rental process.

For the HouseHunt project, the empathy map identifies what users **think, feel, see, hear, say, and do** while searching for rental houses, listing properties, managing bookings, and communicating with property owners. It highlights common challenges such as finding verified properties, comparing rental prices, avoiding fraudulent listings, and managing rental information efficiently.
